SUMMARY

Computer Application (MCA) student and AI/backend developer building production-oriented GenAI systems, including a full-stack Retrieval-Augmented Generation (RAG) platform and a completed multi-agent content-generation pipeline. Proficient in Python, SQL, and system design (Clean Architecture, Domain-Driven Design). Background in full-stack delivery with Flutter and React, and a fast, independent learner who regularly uses AI tools to pick up new domains quickly.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript, TypeScript, Dart, Swift

AI / GenAI: LangChain, LangGraph, RAG Pipelines, Vector Databases (ChromaDB), Prompt Engineering, MCP, LLMs, Groq API

Frameworks: FastAPI, Next.js, React.js, Node.js, Express.js, Flutter, SwiftUI

Databases: PostgreSQL, MySQL, SQLite, Supabase, Firebase Firestore

Cloud & DevOps: Docker, Git/GitHub, Vercel, Postman

Other Tools: Power BI, Figma, Android Studio, Xcode, Tailwind CSS

PROJECTS

Protector | *Flutter, Dart, Provider*

- Built a Flutter mobile app for booking and managing personal protection services, with phone number and OTP verification and an end-to-end booking flow covering protectee/protector selection, dress code, and pickup details.
- Implemented motorcade and vehicle selection, booking history, and an admin dashboard for overseeing bookings, using Provider-based state management with a layered architecture separating pages, services, models, and providers.

DataMind AI | *FastAPI, Next.js, LangChain, LangGraph, ChromaDB*

- Architecting a full-stack AI-powered data analyst SaaS platform using FastAPI and Next.js 15, applying Clean Architecture, Domain-Driven Design, and the Repository Pattern for scalable, maintainable code.
- Implemented a secure JWT-based authentication system as the foundation layer for an in-progress RAG pipeline built on LangGraph multi-agent workflows and the Groq API for conversational data analysis.

EDUCATION

Guru Nanak Institute of Management Studies, University of Mumbai

Master of Computer Application (MCA) — Sem 1: 8.7

Mumbai, India
2025 – 2027 (*Pursuing, Sem 3*)

SIES College of Arts, Science and Commerce, University of Mumbai

Bachelor of Science, Computer Science — CGPI: 8.84

Mumbai, India
2022 – 2025

R.J. College of Arts, Science & Commerce

Higher Secondary Certificate (HSC), Science — 56%

Mumbai, India
2021 – 2022

SIES High School

Secondary School Certificate (SSC) — 81.40%

Mumbai, India
2019 – 2020

CERTIFICATIONS

0-100 Cohort — 100xDevs

Cloud Computing — NPTEL, IIT Kharagpur

Introduction to Large Language Models (LLMs) — NPTEL, IIT Bombay and IIT Delhi

ACHIEVEMENTS

Placement Committee Member — GNIMS

Student Member, BRAIN (Bharat Research in AI & NextGen Foundation) — contributing to national AI research discussions and emerging technology policy initiatives, GNIMS
